

SRIDHAR M

Senior Website Developer | PHP | JS | Angular | API Integrations

+91 6374 666 745 sridharjnet@gmail.com Sridhar Manoharan Chennai - TamilNadu

PROFESSIONAL SUMMARY

- Experienced web developer with 5+ years of expertise in full-stack development using HTML5, CSS3, JavaScript, PHP, jQuery, MySQL, and Angular. Skilled in API integrations, database management, and performance optimization with a strong foundation in responsive design, cross-browser compatibility, and scalable architecture. Currently focusing on strengthening modern front-end frameworks such as React and Angular, while continuing to mentor junior developers and lead technical implementations.
- Currently focusing on upgrading skills in React, TypeScript, and Node.js to strengthen modern front-end and full-stack capabilities.

PROFESSIONAL EXPERIENCE

SENIOR WEB DEVELOPER – KAPPSOFT SYSTEMS PVT LTD Feb 2024 - Present

TECH STACK: PHP, MYSQL, JQUERY, AJAX, ANGULAR, GIT, BOOTSTRAP

- Led the design and architecture of 25+ web applications, ensuring scalability, reliability, and high performance.
- Performed comprehensive code reviews to enhance code quality, enforce coding standards, and ensure alignment with industry best practices, resulting in more maintainable and scalable applications.
- Refactored and optimized legacy codebases to improve system performance, reduce technical debt, and increase overall application efficiency and maintainability.
- Developed and delivered 15+ new websites/applications and handled ongoing maintenance for 25+ websites, ensuring smooth functionality, security, and uptime.

SENIOR WEB DEVELOPER – MAVERICO TECHNOLOGIES PVT LTD Jun 2022 - Feb 2024

TECH STACK: PHP, MYSQL, HTML5, CSS, BOOSTRAP, JQUERY, AJAX

- Developed and optimized back-end systems using PHP and related frameworks for 30+ websites, ensuring efficient data management and smooth processing.
- Designed and implemented cleanup and performance-enhancement processes, reducing system downtime by 30%.
- Managed 10+ new website back-end builds and handled maintenance and upgrades for 15+ existing client websites, ensuring stability, security, and long-term performance.

JUNIOR WEB DEVELOPER – ALLONSY VENTURES PVT LTD Jul 2020 - May 2022

TECH STACK: HTML5, CSS, BOOSTRAP, JQUERY, AJAX

- Revamped web application security systems, reducing vulnerability incidents from 2.3% to 0.02% through improved validation, authentication, and secure coding practices.
- Developed 10+ new websites and maintained 20+ existing client websites, ensuring optimal functionality across devices and browsers.
- Developed responsive, cross-browser-compatible user interfaces using HTML, CSS, JavaScript, jQuery, PHP, and MySQL to deliver seamless and optimized user experiences across all devices

INTERN WEB DEVELOPER – BHEMYA SOFTWARE SOLUTION PVT LTD Dec 2019 - Jul 2020

TECH STACK: HTML5, CSS, BOOSTRAP

- Collaborated with the development team to implement front-end designs using HTML, CSS, and JavaScript, ensuring high-quality UI execution.
- Assisted in building 5+ new websites , ensuring functionality, responsiveness, and cross-browser compatibility across all platforms.

PROFESSIONAL SKILLS

- Front-end Development:** CSS3, JavaScript, jQuery, Bootstrap, Angular
 - Back-end Development:** PHP, REST APIs
 - Database Management:** MySQL, Query Optimization
 - Responsive Design and Cross- Browser Compatibility
- API Development & Integration
 - Code Optimization & Performance Tuning
 - Problem-Solving & Troubleshooting
 - Version Control (Git, GitHub, Postman)

PROJECT HIGHLIGHTS

UNICOINDCX, ZEBACUS (TRADING PLATFORMS)

RESPONSIBILITIES:

- Handled API integrations for real-time trading data, authentication, and transaction processing, ensuring accurate and secure communication between systems.
- Designed and implemented blog page dashboards with a user-friendly interface and efficient content management capabilities.
- Developed and optimized backend functionalities to enhance overall system performance, security, and reliability
- Ensured seamless data flow between front-end and back-end systems using PHP, MySQLi, and AJAX for smooth and responsive application behavior.
- Collaborated with cross-functional teams to improve platform stability, scalability, and long-term maintainability.

TECH STACK: HTML5, CSS, BOOSTRAP

IMFAGLOBAL.COM (FOREX & CRYPTO COURSES PLATFORM)

RESPONSIBILITIES:

- Managed full-stack development, overseeing both front-end UI design and back-end functionality to deliver complete end-to-end solutions
- Designed and implemented responsive, user-friendly interfaces for course listings, enrollment processes, and student dashboards.
- Integrated course content management features to enable seamless and efficient content updates.
- Optimized site performance and ensured a smooth, consistent user experience across all devices and browsers.

TECH STACK: HTML5, CSS, BOOSTRAP

MEXMADAGASCAR.COM (FRONT-END WEBSITE)

RESPONSIBILITIES:

- Developed and maintained front-end components with a fully responsive and mobile-friendly design approach.
- Configured and implemented email functionality for contact and inquiry forms to ensure reliable communication and lead capture.
- Ensured cross-browser compatibility and optimized page load performance for a smooth and consistent user experience.

TECH STACK: HTML5, CSS, BOOSTRAP

CODCONSULTANTS.AE (ARCHITECTURE & CONSULTANCY WEBSITE)

RESPONSIBILITIES:

- Focused on front-end development by implementing visually appealing, responsive, and user-centered web pages.
- Collaborated with design teams to ensure UI consistency, alignment with brand identity, and adherence to design guidelines.
- Optimized front-end performance and ensured compliance with accessibility standards for an inclusive user experience.

TECH STACK: HTML5, CSS, BOOSTRAP

EDUCATIONAL QUALIFICATIONS

B.E. – Electronics & Communication Engineering

Selvam college of technology

2013-2017
